Dear Sir,

Greetings From Nugen Communication Pvt. Ltd. !!

As we had our meeting with you, we discussed that our competitors (Jio, Airtel Extream, Local ISP's) are migrating our BSNL customers to their networks with Live TV and OTT. So we can give solution to save it and add more customer, our TIP can also provide IP TV and OTT services with NUGEN. All BSNL Broadband customers will also enjoy IPTV/OTT without any hassle.

I'm sharing with you IPTV & Ott Solutions.

Please suggest us for any changes. If you want some changes please inform us we will make changes immediately to make you happy.

We promise that this partnership will strengthen our business relations.

Respectfully

Umesh Madheshiya
COO
Nugen Communication Pvt. Ltd.

Nugen is the Premium CLASS A ISP , Providing Lease Line services on RF, FTTx, Fiber optical, Wi-Fi hotspot with affordable rates. It offers solutions of FTTH (fiber to the home) technology on GPON (Gigabit passive optical network). It is a perfect convergence networking solution of Data and Video.

Nugen would also be building a comprehensive services framework that can deliver plans having incredible speed range from 2 Mbps to more than 1 Gig bandwidth and this flexibility gives the user a choice to select. We have engaged committed technology partners to build the required capability frameworks that comply with the highest corporate and household standards.

Our Vision

To be the first choice partner in Broadband and Enterprise services, enabling people to communicate by hi-speed internet and business to grow.
with our premium technology for IP TV users can experience advance level of digital life .

Our Mission

Mission Is Provide high speed internet services or IP Tv in each and every house or offices in across India with to establish and sustain a customer-centric organization through state of the art infrastructure and a team of professionals, to continuously develop, motivate and empower our people and to achieve profitable growth for all our stakeholders.

Our Solutions

Nugen offers you Internet Leased Line connections that are on point if you require committed, always-on, stable bandwidth connectivity, internet traffic, IP TV, VOICE , OTT .
Our Bandwidth are cost- effective and customized based on your organizational needs, particularly if you tend to exchange large volumes of traffic between your company's sites or a valued business partner.

INTERNET LEASED LINE: Experience 24*7 link on Nugen Internet backbone. It provides low and high uptime to support ERP applications, audio & video conferencing, VPN, VoIP applications or any kind of multi-user activity.

IP TV : Experience the digital life with our latest technology on IP TV solutions which is compatible to all available devices .

VOICE : With our Technology on digital voice solutions user can experience clean and high quality services on landline or VoIP.

Our Technology

A key design decision was to centralize the network as much as possible at Nugen operations center, allowing it to leverage economies of scale while minimizing the network's footprint and complexity at its points-of-presence (POPs). Nugen can leverage Juniper Networks' Virtual Chassis technology, supported by High End MX series routers , EX series switches and SRX firewall in its core network. Nugen networking design is based on a three-layer network design model with core, aggregation, and access layers. Each layer has specific requirements and provides different features and functionality.

CORE LAYER

High speed packets switching and connect Multiple aggregations switches

AGGREGATION LAYER

The L3 and L2 boundary and connection point for data center firewall

ACCESS LAYER

All Users physically attach to the network
